

Kris Bennett

Developer Relations Engineer | Web3 Technical Educator | Technical Architect

Elizabeth, CO · kbennett2000@gmail.com · [linkedin.com/in/kbennett2000](https://www.linkedin.com/in/kbennett2000)

PROFESSIONAL SUMMARY

Dynamic technical architect and Developer Relations leader with 25+ years driving Web3 adoption, enterprise modernization, and technical education. Expertise in architecting decentralized solutions on Cardano and Agoric platforms, designing and scaling global developer curricula and certification programs that reached 150,000+ learners worldwide, and leading DevRel strategies for next-generation consensus protocols such as Leios. Proven ability to translate complex technical concepts into clear, hands-on learning experiences while partnering cross-functionally with engineering, product, marketing, and community teams to accelerate ecosystem growth.

PROFESSIONAL EXPERIENCE

Developer Relations Specialist — [Input Output Global \(IOG\)](#)

Longmont, CO | February 2025 – March 2026

- Spearheaded Developer Relations, Community Management, and Technical Marketing for IOG's Research & Development group with focus on Leios next-generation consensus algorithm and Cardano scalability.
- Created and shipped production-grade technical tutorials, code samples, React/TypeScript dApp demos, articles, video explainers, and live sessions on advanced protocols and R&D initiatives.
- Collaborated daily with engineering, research, product, and community teams to align educational content with roadmap priorities; served as primary technical liaison to external steering and advisory committees.
- Delivered education programs for developers, stake pool operators, business leaders, and ecosystem participants worldwide while building and refining AI-assisted content workflows.

Developer Relations — [Agoric OpCo](#)

San Francisco, CA | August 2023 – August 2024

- Directed technical strategy for developer onboarding and education; architected and designed highly available decentralized Web3 applications using JavaScript smart contracts, React/TypeScript frontends, Agoric SDK, and Orchestration API.
- Developed and launched global developer curriculum, certification program, and advocate network; produced hands-on learning experiences, code samples, best practices, and reusable templates.
- Mentored developers, implemented scalable processes and tools, and partnered with product and engineering teams on developer-facing initiatives.

Chief Learning Officer — [Blockchain Training Alliance](#)

Temecula, CA | February 2018 – April 2023

- Designed, developed, and scaled technical and non-technical Web3 education programs that trained and certified 150,000+ learners globally, establishing the organization as the premier enterprise blockchain training provider.
- Partnered with Fortune-level clients (Deloitte, Air France, U.S. Patent & Trademark Office) to build internal Web3 education programs and Centers of Excellence.
- Architected and implemented client-specific Web3 solutions aligned with strategic business objectives; co-founded the company, led it to a successful sale in 2021, and fulfilled post-sale obligations.

National Architect / Market Lead — [IBM \(Neudesic\)](#)

Denver, CO | June 2016 – April 2018

- Led enterprise modernization initiatives including cloud migrations, legacy re-engineering, CI/CD integration, large-scale data integrations, advanced analytics, and reporting platforms for Fortune 500 and public-sector clients.
- Designed and delivered greenfield cloud solutions and modern development practices across diverse industries.
- Managed offshore/hybrid project teams; provided technical mentorship and drove adoption of automation and process best practices.

National Solutions Architect — CGI (ECSTeam)

Denver, CO | May 2013 – May 2016

- Delivered national-level solutions architecture and technical leadership on large-scale enterprise client engagements.
- Designed complex system integrations, custom software solutions, and architecture strategies for public and private sector organizations.
- Collaborated with stakeholders to align technical solutions with business objectives while ensuring scalability and performance.

Enterprise Architect — RBA Consulting

Denver, CO | September 2011 – May 2013

- Provided enterprise architecture expertise and strategic technology roadmaps for complex client environments.
- Led design and implementation of integrated solutions across IT systems and business processes.
- Supported technical decision-making and best-practice adoption for development teams.

Principal Architect — Qortex

Denver, CO | January 2011 – September 2011

- Delivered principal-level architecture and technical solutions for enterprise technology projects.

Principal Solutions Architect — Aspenware

Denver, CO | April 2010 – December 2010

- Designed and architected custom software solutions and led technical delivery as principal consultant.

Technical Solutions Manager — Concentrix (ProKarma)

Denver, CO | February 2009 – April 2010

- Managed technical solution delivery and client engagements in CX design and digital engineering services.
- Provided pre-sales technical leadership and implementation support for complex technology projects.

Executive Solutions Manager — Qortex

Denver, CO | May 2007 – February 2009

- Led executive-level solution strategy, client relationship management, and technical delivery.

Lead Solutions Architect — Nelnet (5280 Solutions)

Denver, CO | November 2005 – May 2007

- Led solution architecture for enterprise software platforms in the financial and educational loan services sector (SharePoint, document automation, and custom integrations).
- Designed scalable systems to support high-volume business operations and client implementations.

Lead Developer & Custom Solutions Architect — Media Audits International (Cable Audit Associates)

Denver, CO | August 2004 – November 2005

- Developed custom software solutions and led development efforts for media financial auditing and compliance platforms in the cable and broadcast industry.
- Designed tools for revenue verification, content management, and professional services automation.

Data Conversion Specialist — Ceyoniq Technology GmbH (Treev)

Denver, CO | September 2000 – August 2004

- Specialized in large-scale data conversion, migration, and digitization projects for Enterprise Content Management (ECM) and Document Management Systems (DMS).
- Supported implementation of workflow, invoice processing, and information management solutions for enterprise clients.

EDUCATION

Bachelor of Science in Information Systems

Colorado State University, Fort Collins, CO — May 2000

TECHNICAL & PROFESSIONAL SKILLS

- **Languages & Development:** JavaScript, TypeScript, React, .NET (exposure to Solidity, Go, Rust/Substrate)
- **Web3 / Blockchain:** Smart contracts, dApps, Agoric SDK & Orchestration API, Cardano ecosystem (TS SDK, MeshJS), EVM-adjacent tooling
- **DevRel & Education:** Curriculum design, certification programs, hands-on labs, technical content creation (tutorials, videos, webinars, live coding), developer onboarding & advocate networks
- **Enterprise:** Cloud architecture & modernization, data integration & analytics, project/team leadership, stakeholder & advisory committee management
- **Tools & Practices:** AI-assisted content workflows, LMS platforms, YouTube/video production, agile processes
