

Kris Bennett

Solutions Architect · Ships production software solo, at team speed, with AI · 25+ years across enterprise & Web3

Elizabeth, CO • kbennett2000@gmail.com • linkedin.com/in/kbennett2000 • github.com/kbennett2000

PROFESSIONAL SUMMARY

Solutions Architect and hands-on builder with 25+ years designing and delivering enterprise systems — including National, Principal, and Enterprise Architect roles at IBM, CGI, RBA, and Qortex — now shipping production software solo at the pace of a full delivery team using AI-accelerated workflows. Deep range across enterprise modernization, full-stack product development (React/Next.js, FastAPI/Node, Docker, self-hosted infrastructure), AI/LLM tooling, and Web3 (Cardano, Agoric, Hedera). Co-founded a blockchain education company, scaled it to 150,000+ learners worldwide, and led it to a successful exit. Equally comfortable architecting the system, building it, and teaching others to extend it.

PROFESSIONAL EXPERIENCE

Independent Solutions Architect & Consultant

Elizabeth, CO | March 2026 – Present

- Take projects from architecture through to shipped, production-grade code solo, using AI-accelerated workflows to deliver at the pace of a full team.
- Design and build full-stack, self-hosted systems end to end — React/Next.js and FastAPI/Node backends, Dockerized deployment, MySQL/Prisma data layers — across web, mobile (Capacitor/Android), and IoT (ESP32/Raspberry Pi).
- Build AI/LLM tooling, including MCP connectors and grounded-retrieval systems that make AI reliable on private, domain-specific data.
- Available for contract and fractional engagements in solution architecture, rapid prototyping and MVPs, AI-assisted delivery, and technical strategy.

Developer Relations Specialist — Input Output Global (IOG)

Longmont, CO | February 2025 – March 2026

- Created and shipped production-grade React/TypeScript dApp demos, code samples, technical tutorials, and live sessions for the Leios next-generation consensus algorithm and Cardano scalability initiatives.
- Spearheaded Developer Relations, Community Management, and Technical Marketing for IOG's Research & Development group; served as primary technical liaison to external steering and advisory committees.
- Collaborated daily with engineering, research, product, and community teams to align technical content with roadmap priorities; built and refined AI-assisted content and development workflows.
- Delivered education for developers, stake pool operators, business leaders, and ecosystem participants worldwide.

Developer Relations — Agoric OpCo

Remote | August 2023 – August 2024

- Architected and designed highly available decentralized Web3 applications using JavaScript smart contracts, React/TypeScript frontends, the Agoric SDK, and Orchestration API.
- Directed technical strategy for developer onboarding and education; produced hands-on learning experiences, code samples, best practices, and reusable templates.
- Developed and launched a global developer curriculum, certification program, and advocate network; mentored developers and partnered with product and engineering on developer-facing initiatives.

Co-Founder & Chief Learning Officer — Blockchain Training Alliance

Remote | February 2018 – April 2023

- Co-founded the company and led it to a successful sale in 2021; designed, developed, and scaled Web3 education programs that trained and certified 150,000+ learners globally, establishing the organization as the premier enterprise blockchain training provider.
- Partnered with Fortune-level clients (Deloitte, Air France, U.S. Patent & Trademark Office) to build internal Web3 education programs and Centers of Excellence.
- Architected and implemented client-specific Web3 solutions aligned with strategic business objectives.

National Architect / Market Lead — IBM (Neudesic)

Denver, CO | June 2016 – April 2018

- Led enterprise modernization initiatives including cloud migrations, legacy re-engineering, CI/CD integration, large-scale data integrations, and advanced analytics/reporting platforms for Fortune 500 and public-sector clients.
- Designed and delivered greenfield cloud solutions and modern development practices across diverse industries.
- Managed offshore/hybrid project teams; provided technical mentorship and drove adoption of automation and best practices.

National Solutions Architect — CGI (ECSTeam)

Denver, CO | May 2013 – May 2016

- Delivered national-level solutions architecture and technical leadership on large-scale enterprise client engagements.
- Designed complex system integrations, custom software solutions, and architecture strategies for public and private sector organizations.
- Collaborated with stakeholders to align technical solutions with business objectives while ensuring scalability and performance.

Enterprise Architect — RBA Consulting

Denver, CO | September 2011 – May 2013

- Provided enterprise architecture expertise and strategic technology roadmaps for complex client environments.
- Led design and implementation of integrated solutions across IT systems and business processes.
- Supported technical decision-making and best-practice adoption for development teams.

Principal Architect — Qortex

Denver, CO | January 2011 – September 2011 — *Principal-level architecture and technical solutions for enterprise technology projects.*

Principal Solutions Architect — Aspenware

Denver, CO | April 2010 – December 2010 — *Designed and architected custom software solutions and led technical delivery as principal consultant.*

Technical Solutions Manager — Concentrix (ProKarma)

Denver, CO | February 2009 – April 2010

- Managed technical solution delivery and client engagements in CX design and digital engineering services.
- Provided pre-sales technical leadership and implementation support for complex technology projects.

Earlier Experience

- **Executive Solutions Manager**, Qortex — Denver, CO | 2007–2009. Solution strategy, client relationships, and technical delivery.
- **Lead Solutions Architect**, Nelnet (5280 Solutions) — Denver, CO | 2005–2007. Enterprise platforms in financial/educational loan services (SharePoint, document automation, integrations).
- **Lead Developer & Custom Solutions Architect**, Media Audits International — Denver, CO | 2004–2005. Custom software for media financial auditing and compliance.
- **Data Conversion Specialist**, Ceyoniq Technology (Treev) — Denver, CO | 2000–2004. Large-scale data conversion and digitization for ECM/DMS platforms.

EDUCATION

Bachelor of Science in Information Systems

Colorado State University, Fort Collins, CO — May 2000

TECHNICAL & PROFESSIONAL SKILLS

Architecture & Delivery: Solution & enterprise architecture, system & API design, cloud migration & modernization, legacy re-engineering, large-scale data integration, self-hosted infrastructure, Docker, CI/CD

Languages & Full-Stack: TypeScript, JavaScript, React, Next.js, Node, Python, FastAPI, .NET, Tailwind; MySQL, Prisma, REST API design

AI / LLM: AI-accelerated development workflows, MCP servers & connectors, grounded retrieval, AI-assisted content

Hardware & IoT: ESP32, FreeRTOS, Raspberry Pi, C++

Web3 / Blockchain: Smart contracts & dApps, Cardano (TS SDK, MeshJS), Agoric SDK, Hedera (HTS, HCS, EVM)

Education & DevRel: Curriculum design, certification programs, hands-on labs, technical content, developer onboarding & advocate networks
